

## **2017 Chip Seal Project**

The City of Moran and Allen County Road and Bridge will begin the City chip seal project soon. The project should be complete in less than two days, depending upon weather and mechanical delays. Check this page for updates!

Please see the map below of the streets that this project will impact. The City ask residents on who live along the marked streets to make sure all vehicles are removed from the streets prior to this date. We appreciate your cooperation and will update this notice if plan dates change.

Please feel free to contact City Hall at 620-237-4271 if you have questions.
