

# LIFETIME STEEL POST™

for Wood and Composite Fencing

Designed For Installers

Withstands

**84**  
**MPH**

Sustained Winds\*

- **Less digging** than wood posts allowing quicker, more efficient installations
- **Less Concrete** - smaller post holes
- **No brackets needed**
- **Aesthetically pleasing** black posts complement your wood fence - no need to hide
- **Easily replace** rotted wood posts

## Available in Two Finishes

- G90 Hot-dipped Galvanized with clear coat
- Class III AAMA 2605 Double-layer Polyester finish - Black

### TWO TYPES OF INSTALLATION

PATENTED  
Continuous  
Top Rail

Traditional  
Side Mount

### WIDE FLANGE

Larger grip area gives added strength to the fence, and helps to prevent rails from splitting

### MULTI-PURPOSE KEY HOLES

Allow horizontal stainless steel cable fence constructions.

### HURRICANE CLIPS

High-wind or hurricane prone areas. Sold separately
