Water Conservation Tips

Inside

- * Do run the dishwasher and washing machine only when full. Save even more by using the short cycle.
- * Don't let the water run while washing dishes. Kitchen faucets use 2 to 3 gallons a minute. Filling a basin only takes 10 gallons to wash and rinse.

Outside

- * Don't allow sprinklers to water your street
- * Only water your lawn or plants before 9am or after 7pm.
- * Place 3-4" layer of mulch around trees and plants to retain moisture to keep the soil cool

Bathroom

- * Do take short shower and save 5 to 7 gallons a minute
- * Don't run the water while shaving, washing your hands or brushing your teeth. Faucets used 2 to 3 gallons a minute.

Everywhere

- * Do repair leaky faucets and turn taps off tightly. A slow drip wastes 15 to 20 gallons each day.
- * Don't open fire hydrants

Pets

The Moran Police Departments encourages you to always remember your outdoor pets.

Summertime humidity and high temperatures are just around the corner. These weather conditions require extra care for your outdoor pets.

- ◆ Never leave an animal in your vehicle, as temperatures inside a vehicle can reach well over 120 degrees in a matter of minutes.
- ◆ Be alert to the signs of heat exhaustion. Look for excessive panting or general lethargy, which may be signs your dog is overheated.

Always be certain outdoor pets have access to plenty of shade and fresh water.

The Moran Thrive-Pride organization is sponsoring afternoon bus trips to the Iola Municipal Pool **Wednesdays, June 1 through July 27.** Release forms must be signed by parents or guardians in order for children to ride the bus. For more information, contact Thrive-Pride members Kathy Ward 237-4474 or Nelda Cuppy 237-4522.
