

\* tip to setting front post 90°. lean slightly forward before pushing in back spikes. This will cause front to straighten up when back is set.

Install field # sign on side of net. Use stripies in all 4 corners. Pick side facing where people would see walking to field. Signs go on both net kits.

Each Net post should sit on End Line where "P" is marked. "C" designates Center of Net and field. Post should sit on Blue End line with the back of the

post pole even with the back of the endline. 21 feet from endline to back of pole to be a goal and 21 feet from back of pole to field of play.
