DESCRIPTION: This is one of the more rare short (52") Red Wing Hunters, not the customary 58" model. Factory installed quiver bushings. One of the better looking risers I've seen on a RWH. This one is from the original Wing era (pre Head and AMF). Bow has no delamination; no cracks; limbs are straight. Overlays and tips are in great condition. No drilled holes; No chips, dings or cracks. No stress lines; some very faint crazing on the lower back limb below the tip (so faint it can only be seen from up-close). A few minor scratches and nicks here and there. Decals are in excellent condition. Overall, this is a really nice bow in excellent minty condition for its age.
