

## Proverbially Speaking

In this puzzle, the answer to the first across clue is a common multi-word proverb. These words are then to be inserted in different areas of the grid and it the solver's responsibility to determine exactly where.

All other across clues are in the correct order

Similarly the first down answer is another multi-word proverb whose words are entered in different places in the grid.

All other down clues are in the correct order.

Three of the clue answers are capitalized, one is archaic and one slang. Punctuation in the clues provides grammatical correctness and may or may not help the solver.
