

## Manufacturer Suggested Retail Price Sheet

### What is CatchOn?

**Simply stated, CatchOn provides 100% visibility on 100% of classroom devices.** CatchOn is an administrative tool that provides a real-time digital inventory for district leaders on all apps, software, and website activity. CatchOn is an indispensable tool for any district utilizing digital tools and resources because it provides the needed insight and analytics to inform educators and administrators about usage and trends as well as quantify investments in technology.

**The tool is the only one of its kind, collecting up-to-the-minute data on every device type and all app, software and website activity, allowing districts to see 100% of activity on 100% of devices at their schools including iOS, Mac, Windows and Chrome.**
