

THE DREAM GIRLS SPA PARTY FEATURE

When guests first arrive at "The Dream Cottage", they are escorted to the social lounge areas throughout to await their day of pampering. During their wait, girls are able to choose a frozen smoothie from our smoothie bar and are encouraged to relax with aromatherapy neck wraps and chilled eye packs while they await the spa activities to begin. Tranquil music softly playing in the background is designed to help set the mood!

Once all of the guests arrive, we inform them of all of the treatments planned and talk about the importance of taking time to relax, retreat and rejuvenate the mind, body and soul. Our spa atmosphere is created to feel of a real spa. We offer spa robes that the girls will be requested to change into prior the spa experience. Each of the girls get their own robe and slippers with a name tag favor bag to store their personal items.

Once everyone has changed into their robes, the girls proceed by going to our "treatment room." The first activity will include a soothing aromatherapy facial! Girls relax throughout while donning cucumber slices or cool packs on their eyes. Guests are then given warm towels to remove their face mask. After the face mask are removed, we proceed to apply a sugar scrub to exfoliate their hands and feet, preparing them for the next set of activities. There are several stations set up so that all of the girls are moving from activity to activity. We offer a paraffin hand wax station, make your own lotion and bath salt station, manicures.
