Grandmother Moon's Essence in Flight

Legend has it that Grandmother Moon assists the children of earth, weaving a tapestry of stars to guide us. Captivated with this image, we built a midnight-sky-blue totem, and showcased five zodiac signs that light the path. The Collaborheartists, a group of five women who create together monthly, call out their signs as follows, top to bottom:

Capricorn, (Dec 22-Jan 20) a graphic illustration from Mary Rothman; Sagittarius (Nov. 22-Dec. 21), machine embroidery created by Susan Burnett; Grandmother Moon in the center, sculpted by Pat Moorman); Capricorn, felted by Frances Starnes; Aquarius, (January 20-February 18) sculpted and painted by Pat Moorman; and the sign of Cancer, (June 22-July 20), a beaded crab created by Mary Ellen Merrigan. A star at the top and stars throughout the totem connect the piece.
