

The East Marshall Booster Club needs your help and support. The Booster Club took over the responsibility of running the concession stands at the beginning of this school year. A portion of the money generated from the concession stands helps to support the athletic and fine arts departments at the high school and the middle school. The remainder of the proceeds are retained by the booster club which in turn helps all programs and schools within the district.

The East Marshall Booster Club is in the midst of a comeback and we are doing great things right now. We have a lot of momentum but there is only so much that four board members and a couple of regular attendees can accomplish.

We had good participation in staffing the concession stands during the football and volleyball seasons. Now we need your help during the basketball and future sports seasons. Volunteering to work in the concession demonstrates your pride in the community and helps to foster the educational experience of our students.

Without adequate help the programs for our students will suffer. Whether you realize it or not, every student within the district benefits from the Booster Club in one way or another. What better way to demonstrate to our kids the value of volunteerism than setting the example and working in the concession stand for as little as 2 hours.

Don't we all want the students of East Marshall to have the best experience possible while they are here? Please consider getting involved and helping to promote a better educational experience for the students at East Marshall.

Contact Heather Duncan (641-751-5715), Dana Runner (641-751-3341), or Kati Andresen (641-691-5497), if you are willing to volunteer and contribute to the vital role of **YOUR** East Marshall Booster Club.
