

C.S. Bird Fountain Renovation

Walpole, Massachusetts

A renovation of the historic C.S. Charles Bird Fountain and park in downtown Walpole, Massachusetts. Many consultants, contractors and town committees were involved for developing and formulating design documents for this well know historic feature.

Research was conducted for maintaining its original character. Additional elements and materials were incorporated into the design that enhanced the appearance while complimenting all materials utilized on the project. Services included:

- Site Analysis
- Conceptual Master Planning
- Grading & Drainage
- Masonry Design
- Planting Design
- Lighting Layout
- Pergola Design and Layout
- Construction Documents
- Construction Management

C.S. Bird Fountain Renovation

Walpole, Massachusetts

A detailed layout of the existing conditions and proposed fountain detail were created for the contractors to effectively renovate this 100 year old landscape feature including:

- Redesign and reconfiguration of all plumbing and electrical
- Redesign of the trellis structure to mimic the original historic design
- New radial granite copings with weirs
- Lighting & irrigation design for the park and fountain
- Repointing existing stone work
- Addition of the granite sphere to introduce a unique water feature that would preserve and symbolize the life and commitment of a local fallen soldier
- Research and specification of original turtle fountains
