SPRING 2019 DATA SUMMIT
MAY 7 – 10, 2019 | WASHINGTON, D.C.

INDIANA COMMISSION *for*
HIGHER EDUCATION

Indiana eTranscript Program

- Started in 2005, made statutory in 2013
- Built on a mandated common high school transcript and PESC XML schema
- Funded through a line item appropriation to the Commission for Higher Education
- Interlocking responsibilities for:
 - Commission for Higher Education
 - Department of Education
 - Public colleges and universities

Indiana eTranscript Program (continued)

- Use Parchment as our platform
- Parchment automatically sends transcripts both as PDF images and XML data files (if available)
- 100% of high schools send 100% of their transcripts as PDF images
- Want 100% of high schools to send 100% of their transcripts as XML data files (**Naviance and Common App currently obstacles** to this)
- Need to **modify the PESC XML schema** to accommodate new fields mandated by the **new graduation pathways**

US State-sponsored Transcript Initiatives

New Graduation Pathways in Indiana

Beginning with the **2022-23 graduating class**, all high school students must:

- **Demonstrate college or career readiness** through
- A **graduation pathway** established by the State Board of Education in collaboration with the:
 - Commission for Higher Education
 - Department of Workforce Development

Demonstrating College Readiness (1 of 2)

Postsecondary-ready competencies are demonstrated through one or more of the following:

- Earning a Academic or Technical **Honors Diploma**
- Completing three **AP** or **IB** or **dual credit** or **Cambridge International** courses
- Passing three **CLEP** exams
- Meeting **ACT** or **SAT** college-ready **benchmarks***
- Earning a minimum **AFQT score** on ASVAB battery of tests*

(continued on next slide)

Demonstrating College Readiness (2 of 2)

- Completing a **locally created pathway**
- Earning a state- or industry-recognized credential or **certification**
- Completing [all or part of] a **federally recognized apprenticeship**, i.e. one administered by the US Department of Labor
- Completing a Career and Technical Education or **CTE concentrator**

Demonstrating Career Readiness

Employability skills are demonstrated through one or more of the following:

- **Project-based learning (PBL)** experience meeting design principles adopted from the **Buck Institute of Education**
- **Service-based learning (SBL)** experience meeting design principles adopted from the **National Youth Leadership Council**
- **Work-based learning (WBL)** experience meeting design principles adopted from the **National Governors Association's *State Strategies to Scale Quality Work-Based Learning***

Tools to Manage Pathways

Two focus areas for this initiative are:

School-based tracking - to manage pathways Indiana high schools will need to centralize and track each students pathways selection and progress towards individual goals

eTranscript - extend the data available for both exchange and reporting purposes

Connecting Evolving Needs to Standards

As the technical partner to ICHE, Parchment provides guidance on accommodating evolving data needs through the PESC standards

This project presented a need in the schema to represent additional attributes that combine to describe the pathway each individual student followed in earning their diploma

Steps and Timeline for Changes

- Design potential changes to schema
- Change Control process within PESC to version up the transcript schema
- Update Indiana eTranscript documentation - *Summer 2019*
- Communicate changes to High School Student Information Systems vendors for 2019-20 implementation
- Build API support in Parchment for newest PESC version and transcript design - *Fall 2019*
- Test updates with SIS vendors - *through Spring 2020*
- Communicate changes to High School counselor communities - *ahead of 2020 graduation*

Future thoughts for AcademicAward

- Support standardized code for each area or linked data schemas
- Evidence references for Apprenticeship and Certification
- Other metadata that enhances the individual level of detail
