2.4) Please provide any additional comments you would like to convey to the instructor about YOUR performance in this class.

- I did very well in this class thanks to the efforts of Professor Scauso. He is the perfect blend of toughness and understanding that you need in a professor; he makes you want to do your best!
- I not only learned a lot of new information regarding some issues in politics, but I learned how to think critically and to construct an unbiased opinion on some topics. Overall, this course enhanced my interest in politics.

3. The Professor

3.8) Please provide any additional comments you would like to convey about the professor's teaching:

- Always helpful and available to respond to questions and such. Does well explaining material in a clear way.
- Definetly one of, if not the best professor I have ever had. The professor is very good at explaining the topics and reviewing what we have already learned in lessons prior. He also creates an extremely neutral and unbiased atmosphere where every opinion matters and can be

understood and respected. What I enjoyed the most about Prof. Scauso was his method of teaching and his incredible and clear understanding of the classes atmosphere. The presentations which he used were very helpful and got straight to the point making most things clear and the fact that the professor sometimes repeated his last points and sentences made it easier to take notes process the information. It is very clear that this professor has a lot of experience and knowledge in this field of study, but most importantly, that he knows how to teach and make others understand the subject. Prof. Scauso is an 11/10 professor.

- Excellent teacher! Explains things clearly and concisely and is always willing to delve deeper or explain further at the request of students!
- He took time at the beginning of class to make sure we were all ok and had us do an anonymous poll to ensure that everyone had a smooth transition to living on campus to learning online at home.
- Professor Scauso is a phenomenal teacher. His ability to break down complex topics and convey them in relatable and useable ways is second to none.
- The Professor was very flexible and understanding. It made the class less stressful. The class was very accommodating.

4. *Class Materials*

4.3) Please provide any additional comments you would like to convey relevant to class materials:

- I enjoyed the textbook that we used and it helped to read it before lectures, so I could already have an idea of what was being discussed.
- Quizzes are easy so long as you pay attention and read the book!
- The book was sometimes a little wordy and confusing, I think it would be better for a 200 level class, but it still got it's points across. The quizzes and the extra credit papers were a good way of evaluating our knowledge, in my opinion. The quizzes were short but concise, and the extra credit papers were helpful the students a head start on their final papers.
- The work load was just the right amount.

5. *The Course Overall*

5.3) Please discuss any and all strengths and weaknesses related to this course:

- Maybe a little bit of debate between students could be incorporated into the course? Casually, just worked into some of the classes on more controversial topics. But that is time consuming so I understand that it may not be feasible.
- This course was the most enjoyable course this semester. The only minor downside was the book, as I said previously, it was sometimes a little confusing and the chapters were very long and were often filled with examples rather than actual pragmatic information. This course was a 9/10.
