The new Blade TM Edition. Conceived by players for players and those who aspire to be one. This is your entry into Blade quality, engineering and tone at a very affordable price. Even if you are a beginner, you deserve all the essentials that professionals enjoy. Bodies and necks of traditional solid hardwoods like Canadian Maple and North American Alder, custom made pickups created to meet professional expectations and original Blade features like the Adjustable Tension Guide show these instruments have not compromised on delivering the essential integrity of build that made Blade famous and the choice of professionals world wide. The only thing the Player Series does not supply is talent. That comes from you – the player.
