

PUSH 2 PLAY delivers an extraordinary, quality musical experience that fits almost any budget. For more than a decade now John and Stephanie have been collaborating with great success resulting in a seamless, exciting musical product including old school to the tunes of today.

PUSH 2 PLAY'S music is enhanced with state-of-the-art technology using high quality backing tracks that emulate a full band experience. While most musical groups purchase backing tracks of questionable quality, John and Stephanie

have painstakingly recreated each musical note on all the songs they perform. John plays keyboards and tracks all the instruments while Stephanie sings and is responsible for all backing vocal tracks showcasing their versatility and commitment to a more authentic, personal musical experience for their audience.

Consider *PUSH 2 PLAY* for your next intimate gathering with friends or anniversary party, you will not be disappointed!
