to me, Ken, Deb, Seth, Cheryl, Mike, Jim, Kelly, Andrew, Roget

Hello Association Members,

Given what we have recently learned with the status of the FDOT and the USACE plans for Sea Oats Beach, it now seems likely that it would be a few years before we could realistically have that sand back on the beach. Understandably this does not sit very well with residents. The staff are going to begin looking at all other available options on how to proceed with this. Selling the sand could be an appropriate action and will be considered.

Please feel free to get in touch if anyone has any questions about this.

Peter Frezza

Environmental Resources Manager

Islamorada, Village of Islands

to me

Good Morning,

And I could not agree more with your LMKA Members.

Action must be taken, and I will see that it's on the next Village Meeting Agenda, and that we give the Manager clear direction to remedy this.

Thank You and Respectfully, Mike Forster

to me

Good morning

Hi see that Peter Replied to your email but thought I would add on that we had had a discussion just about a week ago about the sand pile. It is in a conversation of what we can do. I don't think any of us expected it to go this long. Thank you for staying in touch.

Deb Gillis.

Mayor
