

## Josh's Sno Cone Shack!

Jaidyn and Gracie went to visit Josh's Sno Cone Shack.

There were \_\_\_\_ yummy snow cones at Josh's.

Roll the dice to find out how many snow cones they put in their box.

- Record what happens:  $6 - 2$  makes 4 cones left at Josh's Sno Cone Shack
- Prove it!  $6 - 2 = 4$  because  $4 + 2 = 6$
