

TEMPLE ABOMINATIONS OF DESOLATIONS

PROPHETIC PHI RATIO MATHEMATICAL PATTERN MARKING THE POSSIBLE TIME FOR THE 3RD TEMPLE TO BE BUILT

The purpose of this illustration is to highlight several key and unique time and date properties of the 'abomination of desolations' or destruction that took place during the periods of the 1st and 2nd Temples of the YHWH. The sequence of the date and times recorded in history -of such desolations could perhaps suggest a time period in the near future that may determine when the 3rd Temple is to be built. According to some interpretations of the Bible, this subsequent 3rd Temple will likewise suffer the same fate of a yet future desolation that the prior 2 Temples experienced. This timeline takes the prophetic position that a literal 3rd Temple is to be rebuilt. The Bible speaks of a prophetic future 'desolation' that a false Messianic figure, the nation of Israel will accept, will eventually bring to the 3rd Temple. He will convince national Israel that he is the long-awaited and true Messiah. At a certain 'mid-point', he will defile the Temple by 'sitting' in the Holy of Holies -perhaps on the very Ark of the Covenant of Moses.

This theory of when the possible time period for the 3rd Temple to be built is based only on certain mathematical probabilities based on prior Temple date patterns. The patterns presented will incorporate phi and pi coefficients that are overlaid onto the timeline and subject to speculation. Other evidence to support this theory that the 3rd Temple is to be built, perhaps sometime in 5778 will be based on several numerical patterns such as when Solomon's and Herod's Temples were destroyed. These 2 monumental key dates happen to also fall on the same Jewish calendar on the 9th of Av. Perhaps all these variables, that happen to reoccur in patterns, can establish when the 3rd 70-year and 7-year time periods are to reoccur and converge. Based on such examination and number extrapolation, 2018-2025 seems to suggest the likely timeframe.

IF 1 GENERATION = 53 YEARS

Then 53 years (1 Generation) + 691 AD when Dome of Rock begun for example follows.

691 AD + 53 year Generation Factor = **744** years, which is an approximate of the Phi Ratio of **1948**.

Then 52/53 Years x 7 cycles = 364/5 (Solar Prophetic Year).

744 years Phi Ratio of 1948 - **586 BC** when Solomon Temple Destroyed = **188** cycle of years.

586 BC + 70 AD years = 656 - 774 = 88 Years.

1204 Phi Ratio of 1948 - 970 BC when Solomon Temple is believed to have started = 234 years.

A FUTURE ABOMINATION.

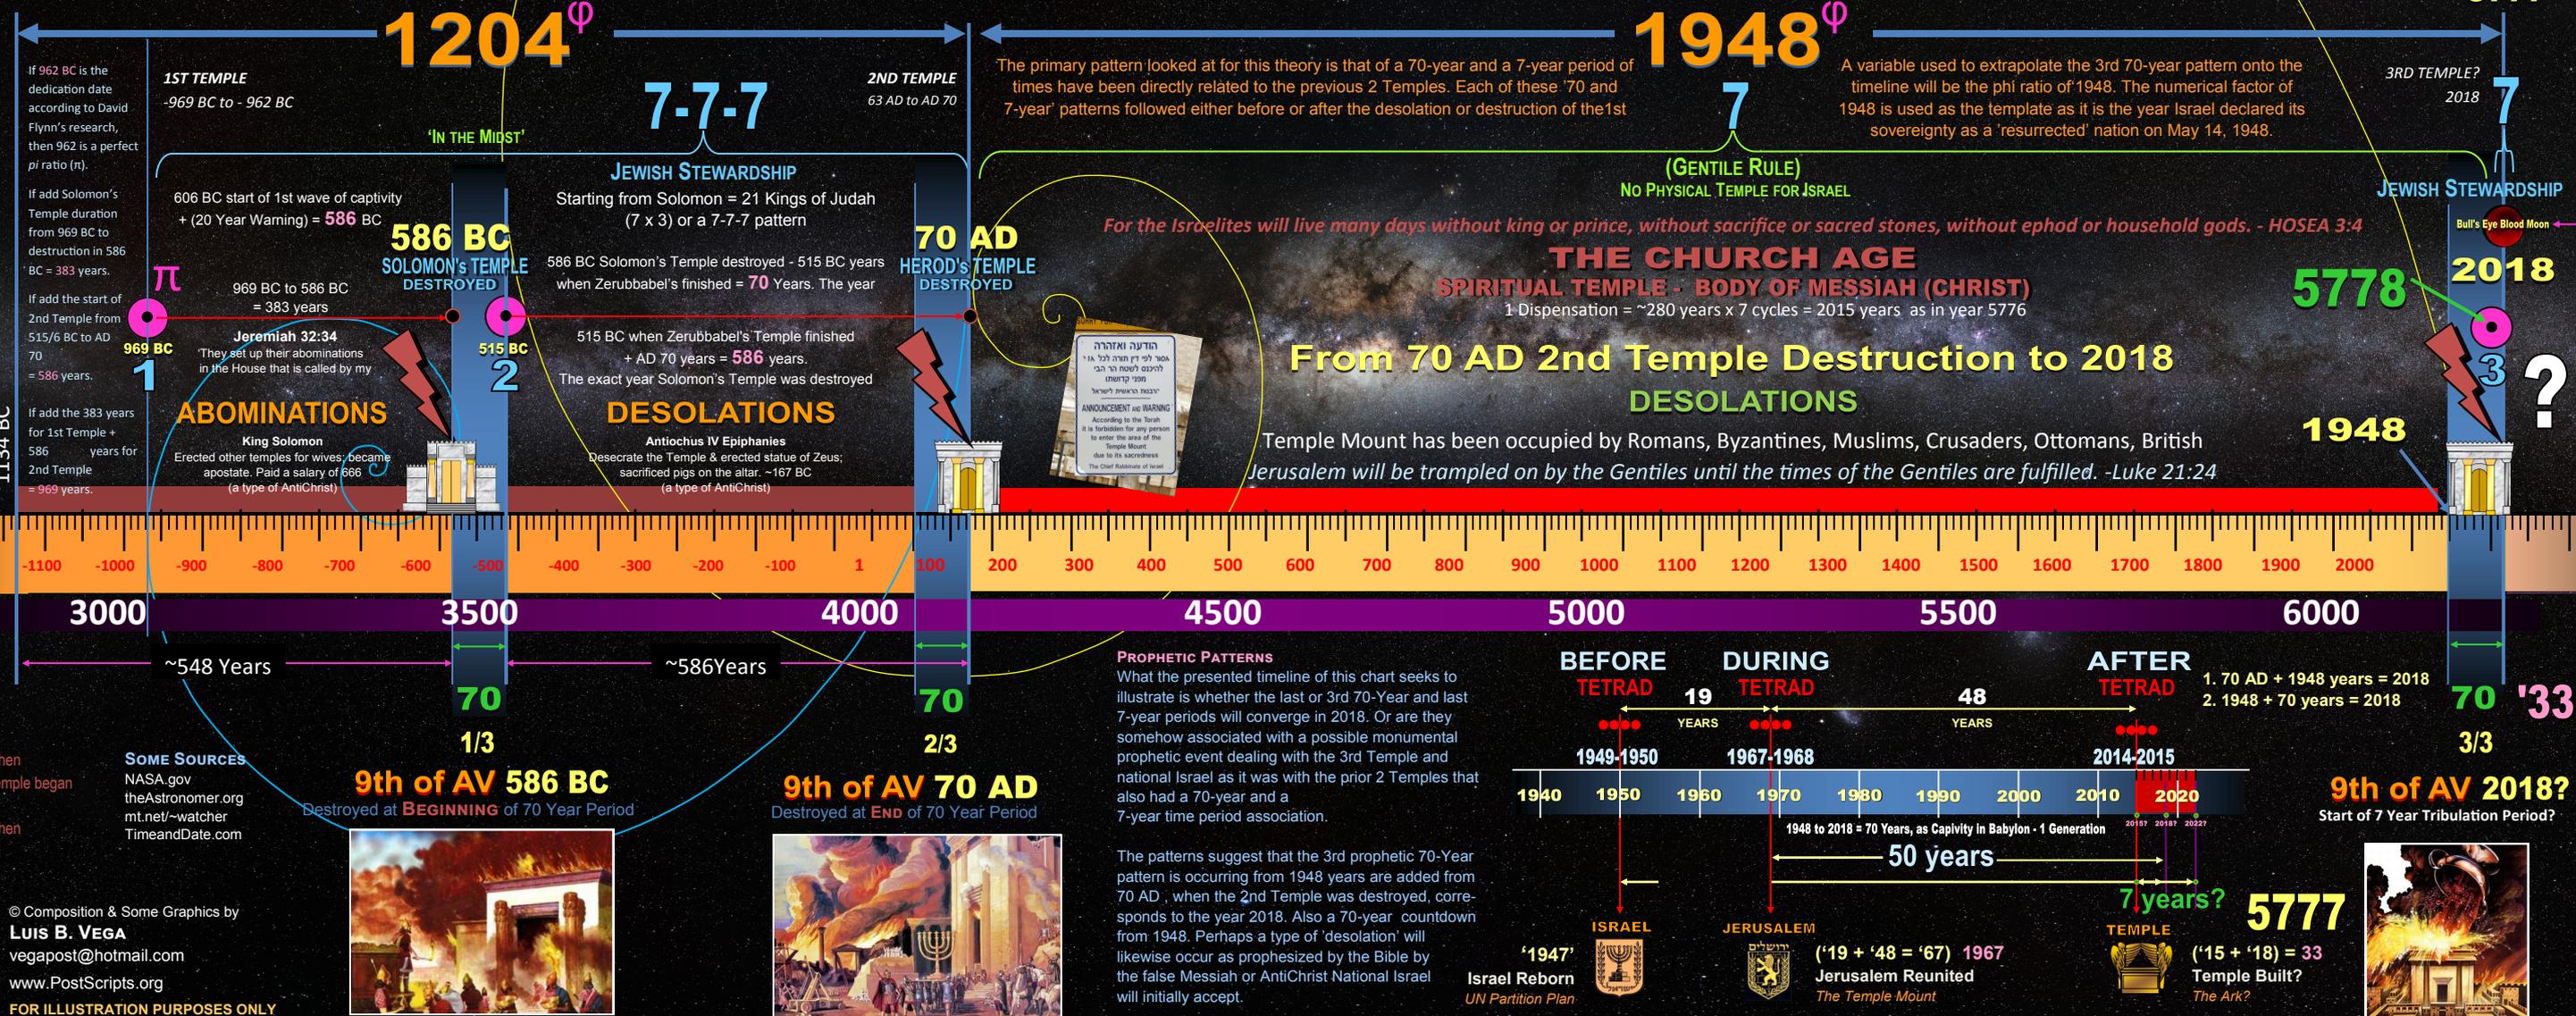

If 5776 is when Sacrifices start due to the 3rd Temple being built and one adds + 3.5 years later will = 2018. This year then is perhaps this when during the Passover season, in the 'midst' is when the 'sacrifices' are then to be ordered to cease by the AntiChrist. This will initiate the worldwide persecution of Jews and remnant Christians as the AntiChrist, once seen as the 'true' Messiah of Israel betrays the Jewish Nation. In turn, YHWH will protect His Remnant Faithful for the remainder 1260 Days or 2nd 3.5 Years per 1 interpretation of Daniel's 'Last Week of Years'.

CENTRAL BULL'S EYE MOON

There will be a Blood Red Moon on Tu B'Av or July 27th in **2018** that is referred to as a 'Central Lunar Eclipse' or Bull's-Eye Blood Moon. It will be in line with Jerusalem. This Bull's-Eye Blood Moon had its counterpart back on 2011 June 15th, of 2011, exactly a 7 Year period. This would make **5778** the year possibly beginning of the 7 Year period that coincides with end of the Tetrad. Could 5778 this signal the start of the literal 7-Year Tribulation or soon thereafter?

MATH RATIOS

By incorporating the phi ϕ mathematical ratio onto the timeline since 70 AD, it makes for some interesting numerical recurrences or patterns that seem to repeat during in time that are leading up to the timeframe of 2018-2025. When one also chooses 962 BC as a benchmark for the 1st Temple holy dedication, it too becomes an approximate ratio of pi (π) in harmony with the 1204 and 1948 year phi (ϕ) ratios.
