

Zaino Bros' Show Car Polish Products

Dear Fellow Car Enthusiast:

Zaino Bros' Show Car Polish are technologically advanced products that are formulated specially for show cars. Show Car Polish products are nothing like the “commercial” products that everyone else sells, but truly very special products where expense is secondary to results. New molecular-chemistry formulas give Show Car Polish products the “wettest-looking”, clearest, deepest, longest lasting and highest UV(40) finish protection in the industry, without abrasives or harmful silicone oils. Plus it is the easiest and fastest polish you will ever use. There is nothing on the market that compares to Show Car Polish products. Show Car Polish products have been written up in publications such as Popular Mechanics, Hot Rod, Street Rodder, Truckin, Vette, Popular Hot Rodding, Super Chevy, Corvette Fever and Custom Rodder, just to name a few. Show Car Polish were rated #1 in Corvette World magazine and also Corvette Fever Magazine's product test of leading car polishes and waxes for highest gloss, easy to use and longest protection. Most recently in 2002, Guru Reports tested 46 leading waxes and polishes so you don't have to. Zaino Bros' Show Car Polished finished #1. President Sal Zaino continues to improve his products year after year. A 30 year owner and operator of a body and paint shop, he still answers phone calls on the Tech Support phone line (732-833-8800) daily. Zaino Bros' does not use any fancy advertising, labels or packaging. You will not find our products in stores; Zaino Bros' are strictly mail order and a network of experienced and authorized distributors. This policy lets Zaino Bros' continue to use only the finest ingredients and maintain the highest quality with excellent customer service. Zaino Bros' products are used worldwide and speak for themselves. Our customers are our best representatives. Please look over our product line. They are superior to anything available in the marketplace. You will never know, until you try them. You won't be disappointed.
