

# MARTIUS VATICANUS

The purpose of this illustration is to show how the Vatican Basilica and Piazza complex in Rome approximates the constellations signs of Sirius and Orion. Both cosmic signs appear to fuse into the Chi Rho cross of Constantine. The Piazza Rome incorporates the alignment and ley-lines of Orion's Belt. The St. Peter's Basilica which means Throne corresponds to the star Sirius or ISIS. She is venerated as the Queen of Heaven by the continued succession of the Babylonian Religion of the 1st Mason, Nimrod after the Flood of Noah. It is evident what and who the Roman Catholic religion truly venerates and sets -up as enthroned in their main temple on Earth presently.
