RollEase® Can Engineer a Lifetime Warranty into Each and Every Clutch It Makes.

Lifetime Clutch Warranty: RollEase Inc. warrants that RollEase clutches shall conform to RollEase, Inc.'s specifications and therefore, when properly installed in a window covering, in accordance with intended category, diameter, size, weight and assembly practices, and when used in conjunction with other RollEase, Inc. components or previously-approved components of other manufacturers, shall be free of defects in workmanship and materials under the normal use and service for which intended, for so long as the original purchaser owns the product.

During the warranty period RollEase Inc. shall, at its expense and at its option, repair, replace or issue appropriate credit for any clutch that proves to be defective. RollEase Inc.'s liability in such cases applies only to the clutch mechanism and does not extend to include any related costs or expenses incurred by replacement, repair or return.

This warranty does not apply to any RollEase clutch subjected to unauthorized repair or alteration, or to misuse or abuse. The warranty herein is in lieu of all other warranties, oral or written, express or implied, including but not limited to the implied warranties of fitness for use. In no event shall RollEase, Inc. be liable for loss of anticipated profits or for special, collateral, consequential or incidental damages, direct or indirect.
