

Morgan's Computer Is Sick Again!

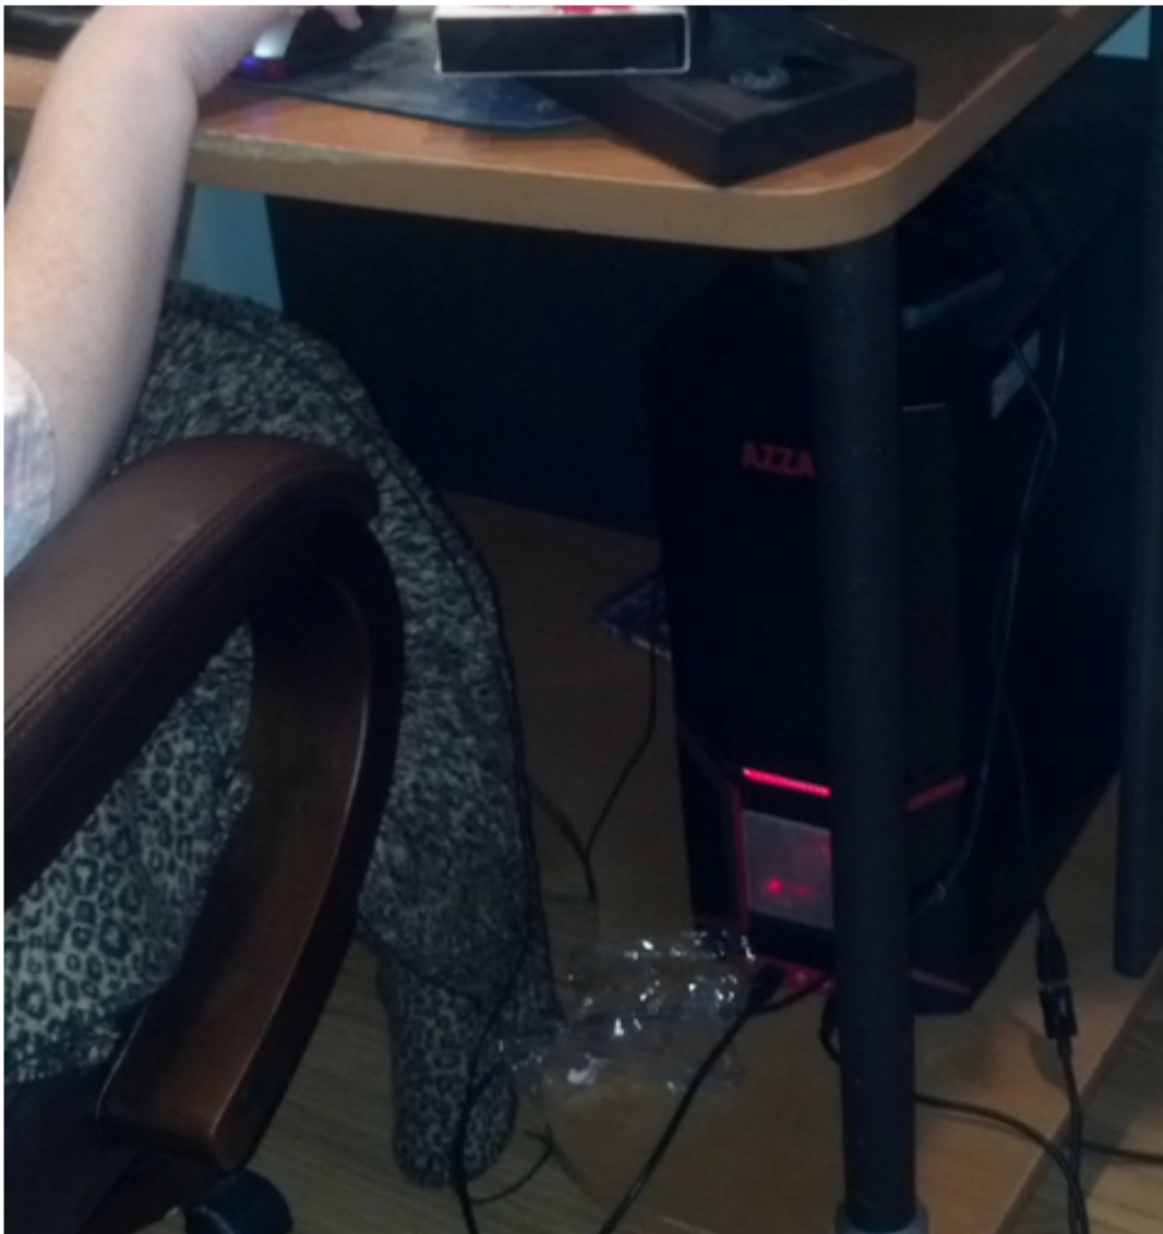

When mom turned on Morgan's computer today, it made a terrible noise "grrrrriiiiind whonk grrrrr" and did funny things. The computer needs a checkup. It is sick again. Even though we fixed it before, it needs to be fixed again.

On Thursday morning, mom will unplug the computer and take the computer, Toshiba and My Book all to the computer doctor's office (Morgan will be at school--just Mom will go). The computer doctor will fix everything. It will take him all day Thursday and most of Friday too!

While Morgan's computer is being fixed, Morgan will still have the gray computer to use.

And soon the computer doctor will have Morgan's computer back to working perfectly again!!!

*The End*
