Adult Education Mission Statement and Vision

Mission Statement

The mission of adult education in South Carolina is to assist adults in becoming literate and obtaining the knowledge and skills necessary for employment and self-sufficiency; to assist students who are parents in obtaining the educational skills necessary for them to become full partners in the educational development of their children, and to assist, encourage and support students in the completion of a secondary-school credential, obtain and/or advance on a job.

Vision

The vision of adult education is for all South Carolina adults to have a high level of literacy that enables them to access needed information, take independent action, express ideas and opinions, keep up with the changing world, and exercise rights and responsibilities as family members, workers, and community members.
