Village of Gold River  
2018-2022  
Financial Plan Statement  
Schedule "D"

**(1) Revenue proposed to come from each funding source:**

Table (1) shows the proportion of total revenue proposed to be raised from each funding source in 2017. Property value taxes normally form the greatest portion of the revenues for most municipalities but in Gold River we receive significant revenue from other sources such as Interest, User Fees and Grants, which can fluctuate and negatively or positively affect the Village financial situation. The system of property taxation is relatively easy to administer and understand. Property taxes provide a stable and consistent source of revenue for many services that are difficult or undesirable to fund on a user pay basis. These include services such as Fire Protection, Bylaw Enforcement, the Library, Roads, etc. For these reasons, property value taxation will continue to be a significant source of municipal revenue.

User fees and charges form a significant portion of planned revenue. Many municipal services such as water, sewer and garbage services can be measured and charged for on a user pay basis. This basis attempts to fairly apportion the value of a municipal service to those who make use of it.

Other sources include a variety of revenues such as grants, investment income, sales of service etc. In Gold River these provide a higher than normal proportion of our revenues compared to property taxes. These sources are very beneficial but often these revenues fluctuate with economic conditions, are less predictable, less stable and uncertain. The fluctuation of these revenues is often beyond the control of Village Council (i.e. interest rates) yet can have significant impact on the Village Budget and Services and expose our budget to a revenue risk should these revenues not materialize. Infrastructure Grants are tied to expenditures programs and communities require sufficient available funding to ensure they can meet their proportionate share of the infrastructure project. Approval of Grant Funding can significantly affect the proportionate distribution of Revenue Sources in any given year resulting in large percentage fluctuations from year to year in Revenue Sources.

**Policy:**

Council reviews the source of revenues for the Village annually during the Five-Year Plan planning process. Through this process Council considers the tax burden, user fees, and other sources of funding in proportion to the planned services and expenditure programme for the Village. Council determines the appropriateness of the level of services and expenditures in relation to the available funding sources and the impact or the burden of costs for these services and expenditures between property taxes, user fees and other sources of funding and considers if changes to the allocation of funding sources should be implemented.

**Objective:**

To review the appropriateness of total revenue proposed to come from each funding source for the planned services and expenditures and to ensure the sustainability of the funding sources to continue to provide the services in the future.

<b>Total</b>	<b>100.00%</b>	<b>\$3,583,200</b>

(2) The Distribution of Property Taxes among the property classes:

Table (2) provided below, outlines the distribution of property tax revenue among the property classes. The practice of Council has been to set tax rates in order to maintain tax stability. This is accomplished by maintaining the proportionate relationship between the property classes, while taking into account for new construction values, deletions from the tax roll and changes in property classes that are considered to be significant and affect the proportionate relationship. Council reviews the proportionate relationships between classes caused by various factors and attempts to ensure a reasonable and fair allocation of taxes between classes to provide for the services identified within the Five-Year Financial Plan. This practice allows the various taxpayers in the municipality to be confident that in any year, depending on proportionate assessment changes within property tax assessment class, their property tax bill will increase proportionately to the increase in tax revenue required year over year, taking into effect greater or lesser assessment increases of their property to the assessment class average.

**Policy:**

The tax policy of Council in setting the distribution of property taxes over time may take into consideration factors such as significant new, or loss of investment in the community, philosophy of taxing apportionment, economic factors or initiatives to maintain, promote or encourage specific sectors with respect to investment in the community. As part of the establishment of the annual tax rates Council reviews the distribution of taxes between tax classes and the appropriateness of the allocation.

**Objective:**

To provide a fair and reasonable tax allocation policy between tax classes to provide a suitable level of community services on an affordable basis to residential and non-residential property classes.

**(3) The use of permissive tax exemptions:**

The Annual Municipal Report for 2017 contains a list of permissive exemptions granted for the taxation year and the amount of tax foregone. This list demonstrates the policy of Council that permissive exemptions are granted to not-for-profit institutions that form a valuable part of our community. These include religious institutions, historical societies, some recreational facilities, service and cultural organizations.

**Policy:**

Council will continue to support local not for profit organizations through permissive tax exemptions that provide beneficial services to the community. Where appropriate Council may consider utilizing its expanded power under the Community Charter to provide permissive exemptions as allowed for in the Community Charter to property owners who contribute to our community in beneficial ways. These may include investments made in greenhouse gas reduction technology or alternative energy, the provision of affordable housing, or revitalization of buildings or areas of the municipality.

**Objective:**

Council will examine its permissive tax exemption policy to determine if it should be expanded in the future to include new opportunities as allowed for under the Community Charter.

## VILLAGE OF GOLD RIVER

### Bylaw No. 711, 2018

#### **A bylaw to authorize the levying of tax rates for Municipal, Regional District, Regional Solid Waste Management, Regional Hospital District and Library purposes for the year 2018**

WHEREAS Section 197 (1) of the *Community Charter*, 2003, S.B.C. Chapter 26 provides that the Municipal Council shall, after the adoption of the financial plan but before May 15 in each year, adopt a bylaw to impose rates to raise money for the current year;

NOW THEREFORE the Council of the Village of Gold River, in open meeting assembled, enacts as follows:

1. The following rates are hereby imposed and levied for the year 2018:
  - (a) For all lawful purposes of the Municipality on the assessed value of land and improvements taxable for general municipal purposes, rates appearing in column "A" of the Schedule attached hereto and made part of this bylaw.
