DESCRIPTION: Shakespeare was IMO the best performing recurve bow brand, and the Necedah was the work horse of the line. Very comfortable grip. This Necedah has no delamination; no cracks; limbs are straight. Overlays and tips are in great condition. No drilled holes; No chips, dings or cracks. No crazing. One 1/4" stress line between the grip and the arrow shelf, and another superficial faint one on the lower back limb in the riser fade-out. A few minor scratches and nicks here and there. Decals are in excellent condition. Overall, this is a really nice bow in superior condition for its age.
