POLLING YOUR AUDIENCE HAS NEVER BEEN EASIER

Special points of

Interest...

- Audience Response & Evaluation Summaries
- Winner of our February Lead's Raffle
- Future of On-Site Meeting & Event Mobile Apps

Future of On-Site Mtg. & Event Apps:

The future is now when it comes to employing an on-site meeting and event app at your program.

It is projected that by 2014 every meeting and event of any size will incorporate an application that at minimum communicates the "Who, What, When and Where" of the program.

Why wait until 2014? The QUICKCOMM solution offers all of that, plus more (i.e., polling, live chat with helpdesk support, pushing alerts, etc.). It comes at a very cost effective price and is a quick communication device on-site that you won't want to do without after using it once!

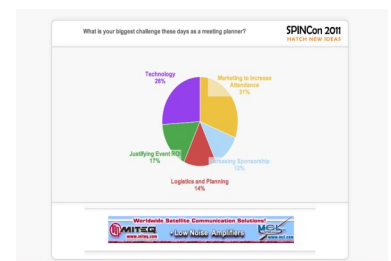

Audience Response Polling Systems coupled with issuing and summarizing Evaluation Forms has never been easier or more cost effective. Merely give us your questions in any format, (i.e., yes/no, true/false, multiple choice or open ended, etc.) and we will attach them to each session of your program that they apply to. They will appear on your customized QUICKCOMM app on their respective session pages, as well as on their own tab on the home page.

We can hide the polls until the session timeframe, if you prefer

the participants not see the questions prior to.

After we load the questions, we provide you with a hyperlink that can be embedded into your presenter's PowerPoint presentation. Hide it with your logo or "click here" and clicking on the link is all they have to do to show the results on the screen during a given poll.

Post program we provide you with an Excel workbook that contains all the results and answers provided by your participants. No expensive AV set up or manpower required. It's that simple and thus cost effective!

February Lead's Raffle Win's Kindle Fire

You may not even realize it, but if you replied to any of our emails regarding our QUICKCOMM tool or if you gave us your business card at a recent Trade Show, like TechCon in Chicago, you became eligible to win our February Lead's Raffle which would make you the owner of a new Kindle

Fire. The winner of this month's Kindle Fire is Colette Butkus of The Meeting Group, Inc.

We hope Colette finds it useful in both her personal and professional life and perhaps uses her own QC customized on-site event app on it at her next program.
