ROTATING PANELS

ROTATOR 1

Strategic Talent Management and Consulting Services.

From architecting a state of the art IT end-to-end solution, to consulting and managing existing IT implementation, to providing technology talent for surge efforts or permanent hire, **ZizaTech** is your one-stop source for IT Consulting service solutions.

ROTATOR 2

Premier IT Talent Solutions for Businesses and Government Entities.

ZizaTech provides Top-tier IT talent to Federal agencies and Small- to Medium-sized businesses.

- Recruiting, vetting and placing quality IT talent
- Temporary and temp-to-hire IT personnel
- Providing RPO (Recruitment Process Outsourcing) support for IT talent

ROTATOR 3

Your Go-to Source for Consulting Services.

ZizaTech's Business and Government agency experience ensure highly-reliable and affordable contract-based Consulting services:

- Experienced Managers with Diverse Agile and SLDC Methodology Experience
- Full Lifecycle development teams for any IT Solution
- Infrastructure system design, procurement and installation
- Cloud Computing Governance and Implementation
- Enterprise data management systems
- Storage, networking and computing solutions
- Cyber-security systems

OUR SERVICES Panel

IT Recruitment, Contract Services and Consulting.

ZizaTech applies management and consulting principles to develop, maintain, and enhance our customers' IT systems based on their needs and objectives. By improving the process of technology delivery, we help our customers reduce costs, maximize return on investment and streamline overall work processes.

GA

As an IT services solutions provider, we develop a synergistic partnership with our clients to help shape requirements, documentation and solution-focused services. **ZizaTech** delivers results that improve efficiency, ensure security and add value to any business need.

RECRUITING AND PLACEMENT SERVICES

ZizaTech workforce solutions allow our client partners to focus on their primary business. We continuously reinvest our knowledge and experience into recruitment training and process improvements. From dedicated expert government resources, to outsourcing and consulting services, to permanent placement—these proven solutions reduce overhead and improve productivity and relieve your operations of labor-intensive hiring activities.

- **Direct Hire:** Our direct-hire solution provides highly-qualified candidates for permanent employment, prescreened to your specific requirements
- **Contract-to-Hire:** Our contract-to-hire solution delivers highly skilled, prescreened employees that you may select for full-time employment at your discretion—giving you the option to evaluate them onsite before making a final hiring decision

CONTRACT SERVICES

ZizaTech contract services provide reliable and affordable IT services to meet any project need.

- **Software Engineering:** We use leading-edge technologies to develop innovative system solutions that meet the organizational and enterprise objectives of our customers. Our applications are stable, secure and reliable
 - Development in Java, Python, Groovy/Grails, EZRO, AJAX, Web Services, Spark, Scala, Javascript and Agile
 - We use open-source technologies and commercial packages to provide secure, quality applications
 - Our experts enhance an application's usability while ensuring it meets 508 requirements
- **Data and Analytics:** We work with each client to identify specific requirements to determine the best approach for database and data warehousing needs. Our experience includes:
 - Commercial relational databases including Oracle and Microsoft SQL Server
 - Open-source relational databases including PostgreSQL, MySQL, NoSQL - CouchDB, Redis and Cassandra
- **Cloud Consulting and Virtualization:** We have extensive experience in providing cloud solutions:
 - Cloud solution options and suitability assessments
 - Cloud migration strategies and cost/benefit analysis
 - Governance, policies, process, network and organizational impact assessments
 - Guidelines for organizational adoption of cloud managed services
- **Cloud Transformation:** We have a proven track record in delivering detailed cloud migration plans:
 - End-to-end cloud migration management plan
 - Evaluation and running migrations tools
 - Writing comprehensive cloud governance policies and processes
 - Leading organizational integration
 - Executing cloud demand management best practices

HOW WE DO IT Panel**Proven IT Solutions that reduce Overhead and Improve Productivity.**

ZizaTech's Software Engineering Practice unifies Software Development (Dev) and Software Operations (Ops). The main characteristic of a unified DevOps approach is to advocate for automation and to monitor all steps of the software development process: integration, release, testing, deployment and infrastructure management. The advantages of our DevOps process are a shorter development cycle and increased deployment frequency and more dependable releases, while maintaining close alignment with business objectives.

Agile and DevOps: ZizaTech is well-versed in all application development methodologies:

- Software Delivery Lifecycle, Agile (Scrum and Kanban) and Scaled Agile
- We are experienced in implementing solutions using a DevOps Development model
- We have proven success in both short-term, narrowly-defined system's needs, as well as, managing multi-year projects

Repeatable and Flexible: Our solutions are tailored to specific client needs and budget constraints

Deliverable-oriented: We provide frequent progress updates and tangible deliverables

Proven project management delivery techniques: We leverage the latest productivity tools and project management delivery techniques to provide transparency and quick escalation, thus ensuring on-time and on-budget delivery.

ABOUT US Panel**ZizaTech: Top IT Talent how you want it, when you want it.**

ZizaTech is a forward-thinking, dynamic consulting and recruiting company formed in 2016 to provide top-tier IT Technologists and Strategists to the U.S. Federal government. Since elite talent-placement costs can be prohibitive for small- medium-sized businesses, we expanded our recruiting arm to focus on serving these businesses. We are an SBA-certified company.

Since our founding, **ZizaTech** has placed highly-skilled, experienced IT talent with government agencies and businesses on a contract, temp and permanent basis. We have won a number of Government-wide Acquisition Contracts (GWACS) to help federal agencies update their IT infrastructure. To date, we maintain a 100% Past Performance record.

WHAT SETS US APART Panel

ZizaTech: IT Professionals with a Mission

At ZizaTech, our mission is to provide IT modernization, consulting, strategy and recruiting services for Federal agencies and for small and medium-sized businesses. As long-time IT veterans in corporate and government arenas, we know the challenges of growing and hiring top IT talent. We believe in building strong relationships with our clients and our talent pool.

ZizaTech has leveraged our client-first philosophy and proven track record to build a grassroots connection to a large talent base of IT professionals. Our network of talent means we are able to place top-tier personnel as well as to quickly deploy contract IT teams for challenging projects. Our success has allowed us to develop trusted advisor relationships with executive IT management.

TESTIMONIAL ROTATORS

“ZizaTech is a pleasure to work with. They work overtime to understand nuances of hard-to-find and hard-to-define staff, and consistently come up with skilled candidates that fit our company culture.”

– Joe Leitenberg, Director, Proposal Operations [at TistaTech](#)

“As a growing small business, we need a recruiter who thinks like us: fast, agile, and to the point. That’s why we use ZizaTech. Ahmad and his team help us narrow our focus from what we want to what we actually need. There is a debrief after each interview so that ZizaTech refines their search criteria to get us the best candidate possible. We have dealt with larger recruiting companies but do not appreciate being assigned to a junior account manager who is reading from a script. ZizaTech makes us the priority, not its bottom line.”

– Kaamil Khan: Director of Operations/General Council at MakPar Corporation
