

Two Steps Forward
By: Mercedes Rebolledo-Leduc

I look for opportunities when given half a chance
I do my best to understand this crazy thing called life
But as I'm moving forward, I need to readjust,
Cause all around me there's a world, that I don't understand.

Chorus: One step back, two steps forward
I am strong, I'm standing tall
One step back but two steps forward
I will conquer, I will not fall

When the challenge is more than I bargain for
And the effort I make seems to want for more
I will not hesitate, I control my fate
I will not sit and wait, I will soar!

One step back, two steps forward
I am strong, I'm standing tall
One step back but two steps forward
I will conquer, I will not fall

When I'm standing alone in a place unknown
And I can't get out from the mess I've made
With a friend by my side, to restore my pride
I will not turn and hide, I will fight.

One step back, two steps forward
I am strong, I'm standing tall
One step back but two steps forward
I will conquer, I will not fall

One step back, two steps forward
I am strong, I'm standing tall
One step back but two steps forward
I will conquer, I will not fall

I will conquer, I will STAND TALL !
