

## Utah Early Childhood Conference

March 3, 2018

### Featured Presenter

#### Diana Brown

Diana Brown, M.Ed has been a professional educator since 1988. She has a B.A. from Arizona State University and an M.A. from Northern Arizona University. As a classroom teacher, she realized that managing student behavior was the number one concern of educators. The majority of classroom management systems had children asking, “What do I get if I’m good,” or “What will happen to me if I’m bad?” The search was on to find a better way to interact with children and reconnect to the joy of teaching

**Diana will be presenting a two part session in session 1 and Session 2.**

#### **Session 2 Presentation 1:15 PM**

**201: Part One – Keeping Schools Safe with Conscious Discipline: A Brain Based Approach to Challenging Behaviors**

#### **Session 3 Presentation 2:45 PM**

**301: Part Two- Keeping Schools Safe with Conscious Discipline: A Brain Based Approach to Challenging Behaviors**

This fast-paced workshop will empower teachers and caregivers to effectively handle behavior issues and conflicts, will be presented with the learning brain in mind and will include music, movement, and interaction. Participants will gain insight into the brain states indicated by difficult behaviors and brain-compatible guidelines for intervention. Through playful skill practice, conferees will internalize a fresh approach to everyday issues in the classroom and foster healthy, direct and respectful communication among children and adults in moments of upset.
