we will be presenting to you:

- Brampton Business Opportunities;
- Workshop : Toronto Airport's strategic direction; and
- **An exclusive airside and behind the scenes tour of Toronto Pearson airport**

Keynote Speaker:

Howard Eng - *President and Chief Executive Officer of the Greater Toronto Airport Authority*

Workshop title:

"Toronto Pearson's strategic direction and opportunities for the Chinese community"

Recently, GTAA released an economic impact study which has significant implications and opportunities for Brampton & GTA businesses, today and into the future. You may be aware that 40,000 people come to work each and every day at Toronto Pearson International Airport, with employment incomes totaling \$7 billion dollars. This makes Toronto Pearson one of the single largest employers in the GTA Region and for residents in Brampton. GTAA's new strategic direction seeks to make them the best airport in the world, and ensure it operates on the global stage as a world hub. As GTAA grows from 39 million to 60 million passengers by 2030, this will present strong opportunities for Brampton & GTA's businesses, including the growth of direct employment from 40,000 to 60,000 people. Its strategic direction also has a very strong focus on China and Asia in the years ahead that we believe our members would find of interest. More info on the study can be found at:

<http://torontopearson.com/economicimpact/>
