

AME SO CAL LEAN TOUR

September 20-21, San Diego, CA

Host Company:

Costco Optical
General Atomics
Pentair
Solar Turbines

See 4 great lean thinking companies in just 2 days!
Spend time seeing lean practices in action on the shop floor. This is a hands-on tour of 4 sites, not a presentation seminar. Join us for two great days!

Who Should Attend

- Anyone wanting to learn more about lean practices
- Company or business leaders who want to take their organizations to the next level of safety, quality, lean, service and productivity
- CI professionals, engineers and operations leaders who want to expand their toolkit and look for new ways to implement and sustain lean
- CEOs, company owners that need to make improvements within their teams to get results
- Students, teachers and others seeking how to learn and develop lean practices

EVENT DESCRIPTION

This AME West Region annual event returns to Southern California this year and features 4 companies that are demonstrating how to deploy and sustain lean and enterprise excellence at their sites.

What You Will See:

- At **Costco Optical**, you will see daily Kaizen (implemented idea program), visual controls, TPM, excellent employee engagement, Kanban and more
- At **General Atomics**, you will observe vertically integrated manufacturing, standard work, Poka Yoke, Kanban, Leader Standard Work and much more
- **Pentair** will feature total site Hoshin Kanri, visual controls, cellular manufacturing, Kaizen, Kanban pull systems, leader standard work, 6S and more
- **Solar Turbines** will share their Visual Management, team scorecards, standard work, Gemba, Heijunka or level loading, Kanban and much more

NOTE: Due to Department of Defense and ITAR requirements, only US citizens may participate on both the General Atomics and Pentair tours.

For more detailed information, visit www.ame.org

Participant Benefits

- Participants will see lean implementations in practice and have the chance to ask what went well and what would you do differently of the site personnel directly
- The opportunity to see lean adopted in 4 distinctly different businesses – consumer optical, UAV drones, electronic equipment and turbine engines
- Participants will be able to meet other similar-minded professionals in their area of expertise and develop contacts for benchmarking and best practice sharing
- Previous companies and participants have stated that this is the ONE EVENT they strive to attend because of the excellent learning opportunities
