

# Why you must attend?

## Key Benefits

- Interact with experienced industry colleagues face to face
- Open communication without language and culture barriers
- Gain first hand info of biopharmaceutical, medical device, AI developments in Taiwan and US
- Networking with fellow students/postdoc to exchange cutting edge technology information

## New Jersey: Strength Not Only in Biopharmaceutical But Also in Medical Device Industry

"New Jersey is respected globally for its strength in the biopharmaceutical and medical device industry. The State is home to 14 of the world's 20 largest pharmaceutical companies, including Novartis, Johnson & Johnson, Bristol-Myers Squibb, Merck & Co., Novo Nordisk and Bayer Healthcare." - State of New Jersey Business Portal.

## Mock Interview

Your work experiences or connection can bring you to an interview, but only a good interview performance can lead you to a job. If you are searching for a job/internship/Co-op, you are encouraged to sign up at the registration table for a 30 min mock interview. You would be asked for your contact information, background and resume and we will arrange an experienced person who best fit to your field to be your interviewer. The interview would be conducted at Princeton University campus after the dinner on the first day of the symposium.

## Coffee Break: Time to Boost Networking Skills

Networking is a way to learn more about things not on your radar. It could be life experiences, specific knowledges or even job opportunities. We know that networking can be the most nerve-wracking part for some of you, and if that is the case, please don't hesitate to approach any of the 25 symposium organizing committees during each of the coffee break. We will wear noticeable "Q&A" sign for you to easily find us. Come tell us about your story and ask us to "hand-by-hand" prep you to master your networking skills.

## Lunch & Dinner: Eat With The Right People

It's an art to efficiently locate the right people to talk to in a networking environment. The resting/dining areas would be separated into different zones to facilitate people in the same field to find each other. The tentative zones include Marketing and Business

Development, Research and Development, Production and Commercialization; Clinical Research and Regulatory Affairs. We encourage you to connect and develop a deeper bonding to people in your field.
