Memorial items will be chosen for the **Children's Department** collection. We want our young people to be aware of the people who lived in and contributed to this community and helped to make it what it is today. This is a fitting way to honor and/or memorialize your loved one as well as preparing children to be active in their communities in the future.

The library staff will select an item appropriate to the needs of the Collection. Subject requests will be taken into consideration.
