

## SINGLE CROCHET Kangaroo Blanket – Easy for beginners

Use 3 ply 'baby yarn' and size G or H crochet hook

Chain 90 to 100 to a length of about 20" without stretching.

Row 1 Single crochet (sc) in second chain space from hook, \*chain 1, skip one chain space, sc in next chain space\*, repeat (\* to \*) across to end of starting chain. Chain 2, turn.

Row 2 Single crochet (sc) in chain one space, \*chain 1, sc in next chain space\*, repeat (\* to \*) across row. Chain 2, turn.

Repeat Row 2 until blanket measures about 20" square. Work in the yarn endings.

### RIDGED VARIATION

Start out as directed above, except work the sc stitches in only the BACK of loop in the chain spaces. You will see a horizontal ridge forming along each row. This variation works up very nicely when using variegated or multicolored yarn.
