FEEDING PROGRAM

Building Bridges offers three feeding therapy options providing the opportunity for success for children with varying needs. Our trained occupational therapists utilize both Toomey Sequential Oral Sensory and Beckman Oral Motor Protocol approaches in working toward the individual feeding goals for your child.

INDIVIDUAL and INTENSIVE (includes family) sessions are available.

Summer group sessions are forming now and follow program dates. Groups are of similar age and feeding needs, providing the opportunity for peer modeling, food exploration, advancing oral motor skills and *expanding each child's range of foods.*

Our occupational therapist can guide you to the appropriate program.
