National Rifle Association, (NRA) [Small Bore Rifle Rules]
To order rules: 11250 Waples Mills Rd., Fairfax VA 22031 USA.

Note: Coordinator must remember that ISSF rules and NRA are used, since both Guiding Bodies are needed to cover all aspects of running this sport. Using the international standard is preferred. If there are any questions about weapons or rules, contact WPFGB Director for Small Bore Rifle.

In some World Games (like in Fairfax), the shooting distance can be in yards, but in this case the international reduced targets would be used.

As the ISSF rules changed very recently, the NRA rules will be applied at the 2015 Fairfax Games, to give some more time to the shooters to adapt their equipment to the ISSF international rules.

GENERAL SPORT RULES for Rifle – Small Bore

Where conflicts between ISSF/NRA guidelines and WPFGF rules occur (i.e. awards formula, eligibility of competitors and substitution after competition begins) always use WPFGF rules.

CLASSIFICATION: WPFG Classifications will be used. *A competitor without an established WPFG classification may use their official national classification card or Score Record Book to receive an "Assigned Classification" for the specific event.*

Master	92.00 and above
Expert	87.00 to 91.99

Any competitor without an established WPFG classification who cannot present such evidence will shoot their Individual event. The score they obtain on the in their Individual event will be used to determine their proper classification for the awarding of medals in the various classes in the Individual event. This classification will also be used for the Team event.

A competitor's classification will not change during a tournament. A competitor will enter a tournament under their correct classification and shoot the entire tournament in that class. Should it be discovered during a tournament that a competitor has entered in a classification lower than their current rating, the competitor will be subject to possible disqualification. *The WPFGF reserves the right to reclassify any shooter based upon "known ability" or other evidence to the skill of the individual.*

All classifications and scores shall become obsolete if the competitor does not fire in WPFG or other nationally sanctioned competition at least once during 3 successive WPFG events. Master classifications and scores shall become obsolete if the competitor does not fire in WPFG competition at least once during 5 WPFG events.

Competing in a Higher Class - Any individual or team may elect, before firing, to compete in a higher classification than the one in which they are currently classified. Such individual or team must fire in such higher class throughout the tournament and not revert to earned classification for any event in that tournament.

Classification Appeals - Any competitor having reason to believe that they are improperly classified may file an appeal with the WPFGF Director stating all essential facts. Any such appeals must be filed prior to the start of competition. The WPFGF Director will make the final determination as to the classification.

Classification Protests - Any person who believes that another competitor has been improperly classified may file a protest with the WPFGF Director stating all essential facts. Any such protests must be filed prior to the start of competition. The WPFGF Director will make the final determination as to the classification.

Team Classification - Teams are classified by computing the "team average" based on the classification of each firing member of the team. To compute this "team average" the key in Table No. 1 for the different classes will be used and the team total divided by the number of firing members of the team. Any fractional figure in the team average of one half or more places the team in the next higher class. The "team average" will establish classification of the team as a unit but will not affect in anyway the individual classification of team members.

Team Class Key

Master	4
Expert	3
Sharpshooter	2
Marksman	1
