

OHIO STONEWARE

AMERICAN MADE IN  ZANESVILLE, OHIO

PRESERVING CROCKS Gallon Collection

Bristol Preserving Crocks

Our multi-functional preserving crocks serve many uses such as the traditional use of preserving vegetables like cucumbers for pickling and cabbage for sauerkraut, or for everyday uses like pantry and kitchen containers. Crocks filled with food for fermentation purposes should be kept in cool, dry environments which allow the vegetables or fruits to ferment naturally. Our crocks are safe and easy to clean due to our lead-free glazes. They are also oven, microwave, and dishwasher safe.

Water Seal Fermentation Crocks

Fermentation is one of the oldest, easiest and healthiest ways to preserve and ferment food. Natural, lactic acid fermentation allows vegetables to retain more vitamins and minerals than most other methods.

- Designed for making bountiful batches of sauerkraut, pickles or preserving other foods.
- The lead free, food-safe glaze will not retain the food's flavors and makes clean up easy.
- The two semi-circular stone weights rest on top of the food inside the crock and create pressure needed for proper fermentation.

2H 3-Piece Water Seal #11709

3 Gal Crock with lid and weights

Dia 11" Ht 15.5" Wt 25 lbs

*available only in 3 gallon

Preserving Covers

Our covers are made to fit our 1,2,3,4 and 5 gallon preserving crocks. They protect the food during the fermentation process as well as any food stored inside the crocks in the kitchen or pantry.

UTILITY CROCKS

Our multi-functional utility crocks serve many uses like small batch preserving, or for everyday uses like pantry and kitchen containers. Crock filled with food for fermentation purposes should be kept in a cool, dry environment allowing the vegetables or fruits to ferment naturally. Our crocks are safe and easy to clean due to our lead-free glazes. They are also oven, microwave, and dishwasher safe.

KITCHEN NATURALS

Unglazed Bakeware Collection

Kitchen Naturals

- Suitable for oven temperatures up to 450°F
- Oven and microwave safe. Do not use under a broiler, or on the stove top.
- Protect from extreme temperatures. Putting room temperature bakeware into a preheated oven is fine. Never put it in the freezer; do not transfer from refrigerator to a hot oven, or vice versa; and allow to cool before washing
- Hand wash with warm water only - do not use soap as stoneware will absorb it.
- Do not soak in water before use

MADE IN
AMERICA

Celebrating 10 Years

Ohio Stoneware was excited to celebrate ten years in business on July 9, 2015 in their newly acquired 32,000 square foot warehouse and office space in downtown Zanesville. Commemorative tiles designed by a local artist were offered for sale along with a limited selection of vases and mugs with the anniversary date fired on them. Over the ten years, growing pains have been experienced and we continue to strive to meet the demands of our customers by expanding the business at a pace it can support.

First opened in 2005, in Zanesville, Ohio; Ohio Stoneware is one of America's last remaining commercial pottery manufacturers, operating in the heart of what used to be the Pottery Capital of the World. From humble beginnings, when the product line contained only ten items, to a product line today that carries well over two hundred items. We are a family owned business and pride ourselves on manufacturing a quality, American made stoneware. Our pieces are fired at approximately 2,200 degrees, and are processed through a kiln cycle (which heats and cools) for roughly 18 hours. Our glazes are second to none, and will withstand the rigors of daily use for many, many years.

If you are a current customer, we truly appreciate your business and support. If you are not yet purchasing from us, we sincerely welcome the opportunity to begin a relationship. We will do whatever is necessary to garner your satisfaction and we invite you to become a part of the Ohio Stoneware family.
