SUV-24 PLUS UV COATER

Shark Machinery introduces to its Smart line of print finishing equipment the SUV-24 Plus UV Coater. This unique machine is unlike any in the market, designed to compete with lamination. Like other Shark Coaters, this machine coats using traditional UV liquid but offers a unique “Glass like” finish as well as the ability to offer a “Soft Touch” finish. This machine is eliminating the tedious, expensive and time consuming task of lamination. The SUV-24 Plus is a low-maintenance, ultra-violet light, curing coating system, which provides a durable and high-quality finish to your printed sheets. This machine gives outstanding results on both offset and digitally printed stock with a maximum width of 25.25” wide. The SUV-24 Plus is a hand-fed unit with optional feeding devices available. Offer a professional finish by adding this unique coater which is sure to impress.

The SUV-24 Plus UV Coater offers:

- For Offset and Digital
- Finishes: Glass & Soft Touch
- 1 UV lamps, 5 IR lamp
- Maximum width 25.25”
- Maximum length – NO LIMIT
- Variable Speed
- Speed up to 2,500 sheets per hour
- Optional Feeder available
