MAHEC Digital Library

The founding partners of the Missouri AHEC Digital Library have joined forces to create a library without walls that was designed to reach out to health care professionals wherever they practice in the state of Missouri. This information service was established to support clinical practice, continuing education requirements, and enable the practice of evidence-based medicine throughout the state.

Resources in the MDL are pre-selected to support evidence based practice, clinical care information needs, and research activities for our users. They include several hundred medical and nursing journals, full text health science textbooks, comprehensive drug resources, and customizable patient education handouts.

The Missouri AHEC Digital Library is a partnership of Founding Academic Library Partner, J. Otto Lottes Health Sciences Library at the University of Missouri - Columbia; and Founding Community Partner, Mid-Missouri Area Health Education Center, Rolla; and Founding Health Care Partner, Phelps County Regional Medical Center, Rolla.

AHEC-supported students and preceptors, physicians and nurses at regional hospitals, community health centers, and public health departments have access to high quality, evidence-focused resources designed to answer clinical questions at the point of care.

MAHEC is a partnership of seven locally-governed organizations and three university-based health professions education programs working statewide to increase the numbers of Missouri youth entering stable, high-paying jobs as healthcare professionals and the numbers of professionals caring for underserved populations.

The MAHEC partners include:

- A.T. Still University – Kirksville
- University of Missouri – Columbia
- Saint Louis University
- Northeast Missouri AHEC – Kirksville
- Northwest Missouri AHEC – St. Joseph
- West Central Missouri AHEC – Lexington
- Mid-Missouri AHEC – Rolla
- East Central Missouri AHEC – St. Louis
- Southeastern Missouri AHEC – Poplar Bluff
- Southwest Missouri AHEC – Springfield
