Next FunFly/Swap Meet: June 16, 2018

AMA CHARTER #895

Direct correspondence to: Bruce Whatley, 8202 Cheshire Way, Louisville, KY 40222

May Meeting:

The May meeting was held on May 1 at the LRCC flying field.

June Fun Fly

The June Fun Fly will be Saturday June 16th.

Library Plane Show

Reminder we will need volunteers for the show as well as planes, quads and whatever you have that's RC to display. See Jim or Gary to volunteer.

Front Gate Locked

If you show up to fly and the front gate has not been unlocked by the parks department, remember there is a key box located on the back side of the last fence post on the right. The combination is the same as the flying field gate.

Thank You

To those who came out and participated in our 3rd annual Fix and Fly event in April. We had a great turn out and got the work done in less than 2 hours.

Special thanks to Ray Glass who has spent several days going over the patched areas with grass seed.

Reminders:

>Jerry has vinyl club window decals. Nice and only \$12...

>Jerry has a new order of club caps on the way. Caps are \$12, shirts \$12 to \$16 depending on size. He has some shirts in stock. If you have a special request, contact John Vetter.

>AMA cards must be displayed while flying. There are card sleeves in the file cabinet in the club house.

>Guests may fly on three separate occasions before being required to join and fly as a club member.

>Note we do not send out renewal notices for membership, the postage is too expensive.

>When locking the gate, the chain goes under the gate not over.

Membership & AMA Renewals

If you have not renewed your membership for 2018 a \$10 late fee now applies. Midyear discount only applies to "new" members.

What's New

Richard Rice brought a Piper Pawnee fuselage and wing that he made using 3D printing. Plans are from 3D Lab Print and results are really nice looking. He will be using a brushless motor and 4s lipo for power. It is build with PLA plastic which is strong but has some flex to it. Due to size of his printer he printed many small pieces and glued them together.

It's Tick Season:

I picked up a couple of ticks when mowing last week. They are really bad this year. Spraying your clothing with a repellent with permethrin in it will go a long way to keeping the ticks away.
