

LITTLE CREATORS

AN INVITATION TO CREATE COLLABORATIVELY AND INDIVIDUALLY
IN THE SPIRIT OF EXPERIMENTATION AND EXPLORATION.

Sampling of sessions

~Collaborative art project using a tree branch and a variety of art mediums .

~Using petals, seeds, grass, moss, leaves and glue, create an ethereal self-portrait by filling in space surrounding picture of the child.

~All-natural mobile. Make a wind catcher/sculpture from things found in nature.

~Salt dough ornaments and jewelry.

~Build a monster using clay and recycled trash and other found objects.

~Clay pinch-pots decorated with textural patterns from items found in nature/everyday material.

Provocations

Typically, the class begins with a story. This story leads to a discussion and hopefully, inspiration. The children are then provided with materials designed to stimulate creativity.

Express-Explore-Experiment

Reggio inspired activities are about exploration and discovery: exploring with their senses, asking questions, testing theories, making plans and thinking deeply. In this fun & social art workshop, the children will explore new and unusual art mediums and materials. They will create both individual and collaborative projects.

Creative Materials

Weekly projects are inspired by materials discovered in the home, at recycling centers and swap shops, as well seasonal materials from nature. Our sessions are always changing & improving.
