Re: Claims Forms
Private Credit Opportunities Fund, LLC
Asset Class Diversification Fund, LP

Dear Jason:

Enclosed are completed claims packages for the referenced entities in connection with the Detroit Memorial Partners, LLC ("DMP") receivership.

The amounts in the enclosed submissions reflecting net claims by each of the entities against DMP do not reflect any setoff for any amounts paid by DMP to Summit Investment Fund, L.P. ("SIF") or Summit Wealth Management, Inc. We have both previously identified substantial transfers from DMP to SIF which will probably need to be accounted for in some way.

The amounts identified in these claims are well known to both of us. I will be happy to supply any supporting documentation you desire (in addition to your accounting to the Court), but I believe you probably already have most, if not all, of that documentation - which consists of subpoenaed bank records.

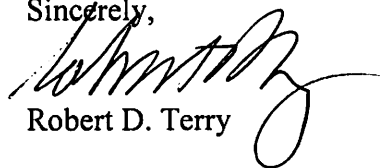

Also, because our respective entities' financial affairs were commingled to some extent, and because many of our respective claims and claimants overlap, I believe it would be constructive for us to collaborate in developing an common approach to addressing claims. I will call you in the next several days to begin to discuss that.
