

**Position:** Mid-Level IA/Security Specialist (Cyber Security Planning)

**Education:** B.S. in a Computer Information Systems or related field

**Job Description:**

This position will support the Senior Cyber Security Planner in ensuring that a detailed Cyber Security Program Plan is developed and executed based on a detailed analysis of the program mission coupled with current published DOD/DON/NAVAIR Cyber Security directives, instructions and processes.

**Responsibilities:**

- Researching the implementation of all security measures deployed on communication systems, networks, and provide technical expertise so that systems and personnel adhere to established security standards and Governmental requirements for security on these systems.
- Maintaining documentation on Enterprise Architecture, Acquisition Documentation, Certification & Accreditation tasks, System Engineering Technical Review tasks and any other Cyber Security related activities in support of the program office.
- Providing an Integrated Master Schedule (CDRL A004) that outlines Cyber Security tasks and milestones that will be maintained as an overlay to program objectives communicated by the Program Office.
- Ensuring Cyber Security milestones over the programs acquisition milestones or significant events to ensure Cyber Security events are monitored for completion.
- Assisting in the development and execution of Government approved security policies, plans, and procedures.

**Qualifications:**

- 4-9 years of experience in IT/Computer Network Operations/Cyber Security field
- DoD 8570 IAT Level II: Security +, SSCP, or GSEC Certification
- B.S. in a Computer Information Systems or related field preferred
- Secret Clearance with SSBI or TS/SCI with SSBI
