Capstone Construction

Attn: Darrell Havins

Dear Darrell,

I just wanted to let you know how pleased Yvonne and I are with the new back yard space you have created for us. You took a small yard and made it a really nice living space for us. It is now 60% larger than original and will allow us to do some things like a fire pit and barbeque island that were just not possible before your crew came in to do this.

In addition to really enjoying the extra space, you made the process really easy on us as well. Thanks for communicating well during the process and making sure our questions and concerns were promptly addressed. Your foremen and all of your employees were always respectful and helpful at every turn. As the project was nearing completion we appreciated the time you took to visit the site and clear up any issues as they arose.

We are grateful for a job well done as well as fair and honest dealing at every turn. Thanks for everything!

Sincerely,

Don Meziere
