

Oberndorf am Lech / Hickory, January 2022

Letter of Recommendation

Towards the end of 2019, our German-based company started investigating a multi-million-dollar embezzlement case in our subsidiary in Hickory, NC. During this investigation which involved nationwide and globally operating investigators and law firms, we selected **Conner Investigative Services, LLC** as our local contact and support.

Grady Conner and his team had numerous tasks during the preliminary investigation and the resulting intervention in 2020:

- Observation of defendants
- Observation and searching remote storage
- Securing and reviewing digital and physical evidence
- Interrogation of defendants
- Communication with the District Attorney
- Personal and object security

Grady and his team did a very good job for us. They managed to make us feel secure and showed a great level of commitment to the victims.

They never lost track of the observed defendants and the interrogation was determined and efficient. Their quick and detailed work contributed to uncovering the embezzlement and to secure the future of our company.

We thank Grady and his team for their help and highly recommend Conner Investigative Services, LLC for all types of investigative needs.

Bernd Motzer
President/CEO
