

POSITION DESCRIPTION

Position: Calf and Maternity Cow Lead Person

We are looking for a hardworking, curious individual to join our dairy farm team. Activities include monitoring the automated calf feeding system, administering vaccinations, observing and treating calf illness, maternity and newborn calf care, and other general farm tasks.

Responsibilities

- Pasteurize and deliver milk to pre-weaned calves via an automated, computerized calf feeding system
- Monitor performance of the calf feeding system
- Observe calf health daily and administer treatments as needed
- Provide care to fresh cows and newborn calves
- Administer vaccinations to calves and heifers
- Disbudding of calves (currently transitioning to a polled herd)
- Clean cow and calf pens with a skid-loader and replace fresh bedding
- Move cows to the milking area from their pen or pasture

Qualifications

- Strong work-ethic
- Team-oriented
- Excellent written and verbal communication skills
- Willingness to learn
- Passion for dairy farming
- Two year dairy management/animal science degree or equivalent work experience

This position requires regular evening and weekend hours.

This position requires regular lifting of 50lb bags and occasional lifting of newborn calves that can weigh up to 100 lbs.

This position requires working outdoors and occasionally in inclement weather.

This position requires working around large dairy cattle.

Benefits: Salary DOE - \$10.50 to \$13.00; company sponsored medical and dental insurance; vacation pay, holiday pay, sick days, LTD

To Apply: Please respond with resume or experience via email to jobs@strausmilk.com with the subject line Calf and Maternity Cow Lead Person
