

CLEANER ST-5700

DESCRIPTION

ST-5700 Ion Exchange Resin Cleaner is a concentrated liquid product for cleaning cation exchange resins. This product is effective for cleaning both inorganic zeolites and resin type ion exchange beds. ST-5700 is a chelating-type cleaner, which will remove iron and other inorganic cations from fouled resin surfaces. In normal use, ST-5700 is noncorrosive to softener tanks and piping.

APPLICATION

ST-5700 is intended for use as a soak-type cleaner for iron fouled cation resin beds. This product can also be added to the regenerant brine as part of a preventative maintenance procedure. For additional information, refer to Aqua-Service Bulletin #7.

PHYSICAL DATA

Color & Form.....Colorless liquid
Specific Gravity 1.116
Product pH..... 5.4
Density9.31 lbs./gal.
OdorOdorless

DOSAGE & FEEDING
