

C-130 Crash Rescue Fire Training Facility

Standard US Air Force Design - Now Available in Dual Fuel Propane and FLH

Product Code: C-130FT

The trainer that started it all for Kirila Fire – The C-130 for the US Air Force. 58 of these trainers were built by the USAF and have recently undergone a \$11M refurbishment and upgrade program to extend the life of the trainers by 15 years. In addition, we have now begun to convert the exterior fires on these trainers to FLH/jet fuel to further enhance realism.
