## About the Lecturer

Chris Philpott is an award-winning screenwriter and director. He's best known for his *100th Monkey Principle*. Chris has created and scripted effects for Derren Brown, Justin Willman, Steve Valentine and two *America's Got Talent* finalists.

## What You Will Learn

Chris will be teaching a number of mentalist and magic effects from his arsenal of best-selling effects and books, including *100th Monkey Principle*, *Intimate Mysteries* and *Narcissus*. He will also teach new effects and his variations on some classics.

**Spellcaster:** The cleanest spelling trick ever!

**Emotional Reaction:** Chris's re-scripted variation on the Vernon classic.

**Photo of the Kids:** You know that photo of your kids you keep in your wallet? A spectator is able to describe it with uncanny accuracy without seeing it!

**Unhypnotized:** For the first time, an effect guaranteed not only to amaze your spectators, but to make them feel better about themselves.

**Identity and Essence:** You ask three questions of a spectator which turn out to be more revealing than she suspected, and you have predicted every one!

**Intuition:** A spectator finds a thought-of card the old-fashioned way – by dowsing!

And much, much more...

## What Other People are Saying

*"Absolutely brilliant! Your work stands on itself and when that happens... rare."* – **Banachek**

*"To the jaded of us who say 'It's all been done,' or 'There are no new effects or methods,' tell that to Chris Philpott."* - **Francis Menotti**

*"The 100th Monkey is not just a method; it's an adventure! You're going to want to run with these simian secrets."* -**Max Maven**
