

Quick Pay Program (EFS Money Code)

Dye Star, Inc has a quick pay program that offers our carriers the option to be paid quicker than the standard 30-day terms. To qualify, this is the process to follow:

If we receive the POD and invoice when the load delivers, we will issue a EFS Money Code with a 5.5% fee of the gross pay. Simply write down on each invoice or sign the load agreement with your dispatcher at time of booking.

We offer quick pay to carriers that are established and are currently in good status with our company. If you have a factoring company, we must be notified and given permission to utilize the quick pay program.

Please read and sign below...

We are not currently factoring our freight bills and have become an established Dye Star carrier. I agree to the Dye Star, Inc. quick pay program at a fee of 5.5% of gross pay (minimum of \$45). I have the understanding that Dye Star is only legally allowed to provide quick pay options to carriers that do not currently utilize a factoring company. I authorize below that I am not working with any factoring companies and would like to participate in the quick pay program.
